4th May 2001

Dear George and Shirley,

Thank you both for the card you sent while on holidays. It sounded like a pleasant trip. I guess you stopped to have a look around Point Lonsdale and I would be interested to know if it was disappointing to hear of the response you received from Mrs S. S. Stevens. I am reasonably confident that she was the person you were seeking as the electoral rolls and telephone directories indicated that was the case. If you think it worthwhile, I will ring some of the larger cemeteries in Brisbane to see if they have a record of a Mrs S. S. Stevens.

The bits and pieces I have included are items which I thought you might like to add to your collection. You may already have copies of some of the printed material. Included you will find various photographs, one of course is Betty. The others are predominantly those relating to interests of dad. Some I have only just discovered after having a clean-up (I am getting the house painted), and others I hadn't

You mentioned that one of the boys, William I think, is very good at maths so I thought he might be interested in the slide-rule and the log tables, both of which belonged to dad, although I guess neither of these are still used today.

Best of good wishes to all the family.

Kindest regards
